Extensions, Conservatories and Orangeries

Why Choose Premier Windows and Conservatories?

You're in safe hands

Making the decision to invest in improving or extending your home can be daunting; and will no doubt involve many choices ahead on the road to realising your dream home.

Premier Windows and Conservatories focus on delivering excellent service in and around Oswestry, Shropshire & North Wales. We add our local knowledge to nationally recognised products to provide you with a seamless and stress-free home improvement experience.

Using only the finest materials, coupled with qualified designers, first class project management and skilled trades people on every job, ensures Premier excellence. And to give you added peace of mind, we offer a comprehensive guarantee with all our products and installations - with the confidence of knowing that we will be here on hand if you ever need to use it.

Whatever the size of your project, we'll guide you throughout the whole process, helping you to make the most inspired and informed choices. And with our range of flexible payment options there's never been a better time to give that little extra to really love your home.

PEACE OF MIND

You're in safe hands with Premier.

Easy payment options.

A personal touch...

Our caring approach

Premier's partners, Conservatory Outlet, are the UK's leading uPVC glazing manufacturing company who specialise in producing the most innovative, high quality windows, doors and living spaces on the market today.

Every customer is unique, and we approach every enquiry that way, offering an unparalleled choice of products, colours, textures and designs to compliment every home.

Our products are manufactured in the UK to the highest quality standards.

Because we work closely with our suppliers, we can ensure that every order is created with an outstanding level of care and attention to detail, ready for us to install into your home.

Choosing your living space

With such a vast range of home extensions and living spaces on the market today, it can be daunting thinking about where to start...

A little planning upfront about how you want to use your new space will help us to ensure your final project is exactly as you imagined.

Our friendly design experts are on-hand at every step to help and advise you on the main design considerations, technical details and finishing touches to suit your lifestyle, your home and your budget.

Whether you know exactly what you want, or are simply ready to be inspired, we'll help you bring your ideas to life.

To help you get started, we've put together this handy checklist of **things to consider** whilst you're browsing through our brochure:

Position

Where in your home will your new living space be? Will it be North or South facing? Are you overlooked by neighbours? Do you want to make the most of your outside views? Where you plan to locate your new living space will impact on a number of choices including roofing, glazing options, feature doors and security accessories.

Function

How do you plan to use your new space? Whether it be extra room for the kids to spread out, a large open kitchen or simply a space to relax and enjoy the garden views, we can help you choose the ideal shape and design for your needs. Square or rectangle designs often provide the greatest floor space for family rooms, whereas an "L" shape design make way for great multi-use spaces.

Aesthetics

From a traditional cottage feel to a sleek and contemporary design, we can help you choose between uPVC and aluminium frames, solid roof systems, skylights and performance glazing, to classic or modern accessories. It's all about aesthetics, so try to consider the 'look' you like whilst you browse through our brochure and we'll help you choose the right materials to achieve it.

Finishing Touches

The finer details will bring life and personality to your living space - make sure you consider how you'd like to integrate heaters, fans, lighting and even sound systems to make the room your own.

Our Range

At a glance

Conservatory

Simple and stylish, the conservatory is designed to look and feel like an added feature of your home. The extensive use of solar control glass allows for uninterrupted views of your garden, flooding your home with natural light and warmth.

Orangery

An exciting alternative to the conservatory, the orangery incorporates brick pillars alongside large windows and feature doors to create a perfectly coordinated addition to your existing home. Ideal for those looking for a little more privacy and a more elegant finish, whilst still maintaining that beautiful view.

Solid Roof Extension

A hugely popular choice, our latest solid roof designs give you unlimited possibilities to achieve a warm, thermally efficient room without having to compromise on natural light. Glass panels and Velux windows can be seamlessly integrated exactly where you want them, creating a practical and versatile family space that will stand the test of time.

Skylight

Stand out from the crowd with a stunning Skylight – a real wow factor that will become the focal point in your room. Crisp angles, clean lines and tinted glass will give your room a warm, bright feeling with a dramatic finish.

Roof Replacement

Our energy efficient, lightweight solid roof systems offer a superb, cost-effective solution to upgrading your existing conservatory. Swap your polycarbonate or glass roof for a custom-made tiled roof to achieve a warmer space that feels more like an extension – allowing your family to enjoy the space all year round.

Conservatories

Make the most of the outdoors by extending your indoor space into the garden.

Because they're predominantly glazed, conservatories are flooded with natural light and offer uninterrupted outdoor views, creating the perfect room for ambience and relaxation, entertainment or play.

Our innovative collection of solar control glazing options will ensure your room is kept cool in summer and warm in winter. And why not add sliding patio or bi-folding doors to your conservatory to really open out your living space in the summer months?

Our range of traditional and modern conservatories offer superb value if you're wanting to add extra space to your home with a light and multifunctional room.

Sit back, enjoy a glass of wine and take in that **beautiful view.**

"We love our new conservatory,
everyone who visits comments on
how bright and spacious it looks"

Mr and Mrs Robinson

Modern Conservatories

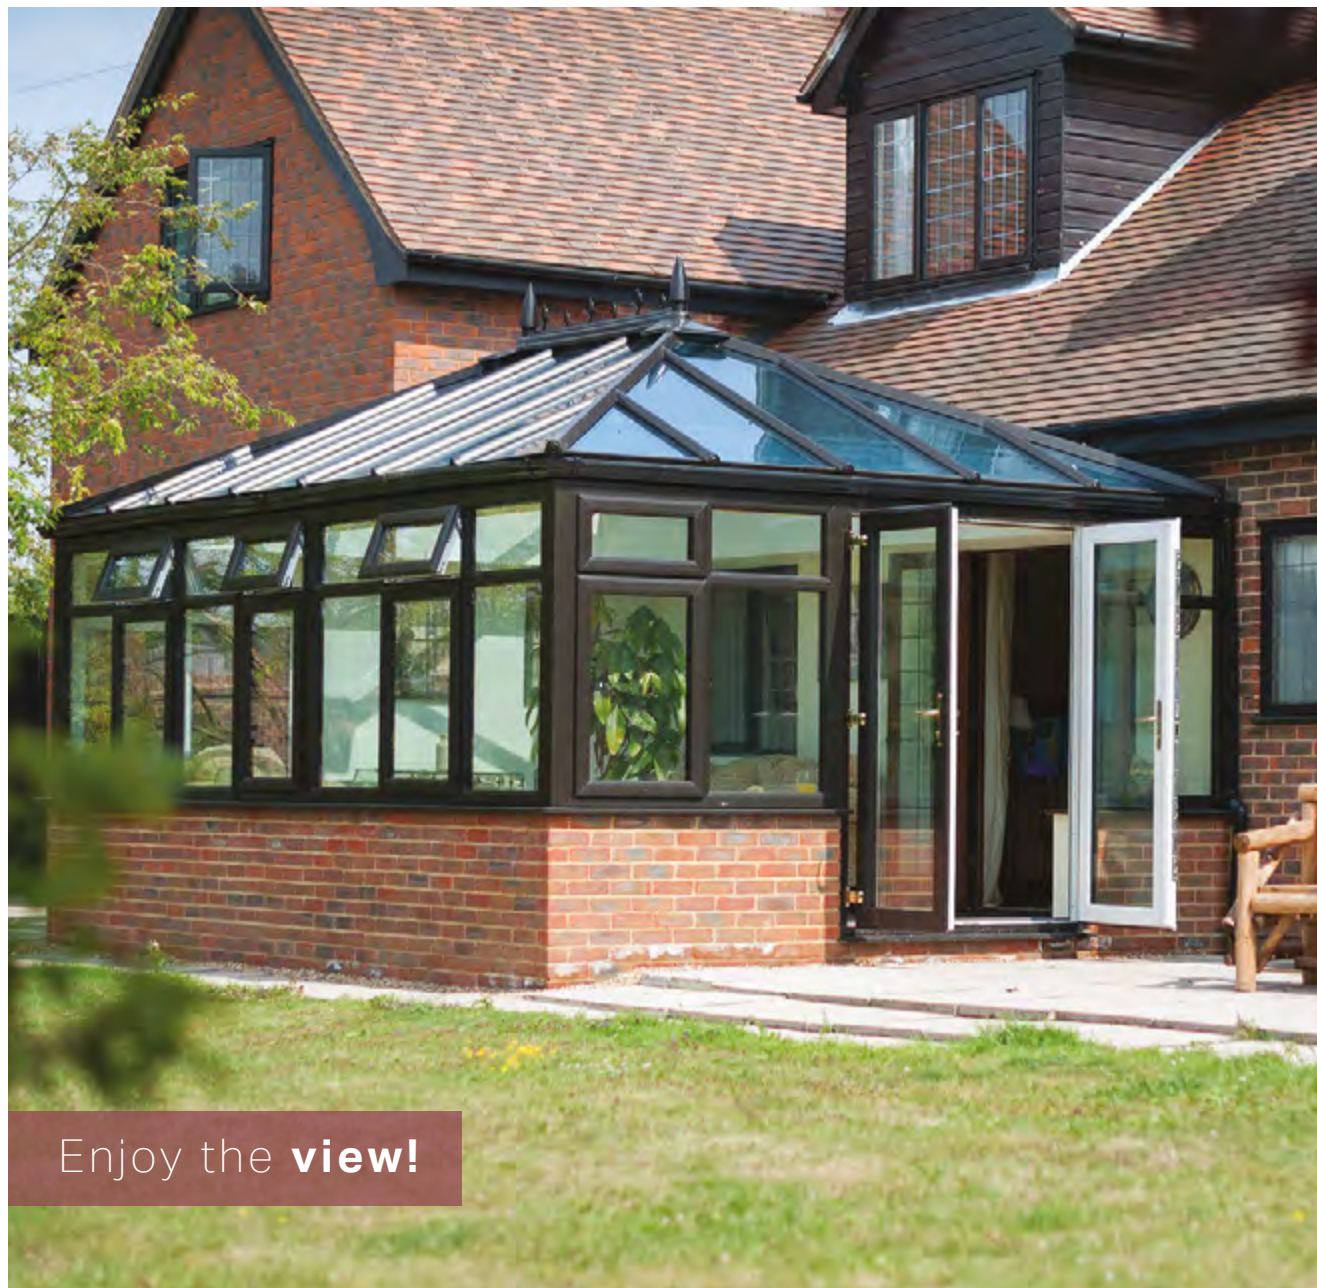

Nothing says 'modern conservatory' more than coloured frames. We have an extensive range of colours on all our frame options, including dual-colour frames, where inside and outside colours are contrasting, resulting in the perfect match to both interior and exterior designs.

Our modern conservatory designs typically offer an internal lighting pelmet and mounted spotlights that creates a comfortable and cosy environment.

Simple
and **stylish.**

Enjoy the **view!**

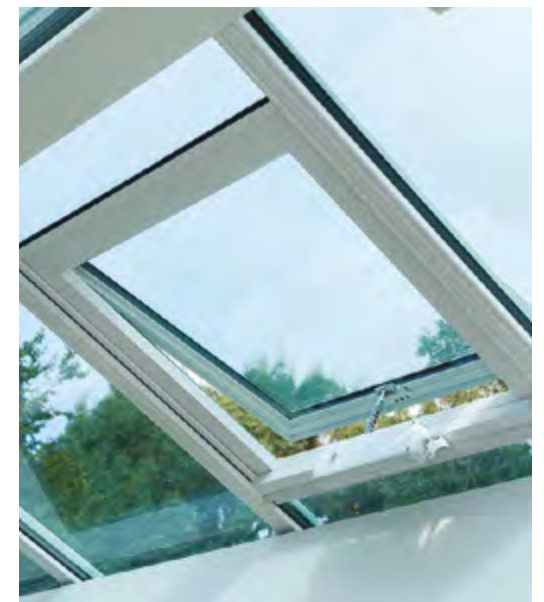

Add dwarf walls to your conservatory for a little extra comfort.

Bring your
conservatory to life
with a **splash of colour**

Classic Conservatories

A rectangular shape delivers maximum floor space and gives you a perfect blank canvas for your choice of furniture and decoration. A fantastic choice of innovative tinted roof glass options means you can control the thermal performance of your room without losing that stunning sky view.

Flood your space
with **natural light**

Orangeries

Dating back to the 17th century, the original concept of the 'orangery' was born in Italy. Sported by many elite residences at the time, orangeries were used to grow citrus trees and were a clear mark of wealth.

Today, the same mark of elegance still shines through. Our collection of stunning orangeries will give you a world of opportunity to make your mark, creating a striking living space that will be the envy of the neighbourhood.

Matching brick pillars to your existing home for a seamless look, or adding a touch of aluminium for a sleek, modern finish, the choice really is yours. You'll still be able to incorporate plenty of glass so you don't lose that welcome view of the outside, but with a little extra privacy and warmth for a more luxurious feel.

Sliding patio, bi-folding or French doors all compliment the look perfectly, opening your room up to the garden outside.

A true mark of sophistication –
more space for your family to
enjoy and **perfect for entertaining.**

"It's exactly what we'd hoped for! Lovely and warm even in winter, so we can still cosy up and enjoy family time. The doors are permanently open in summer."

Mr & Mrs Stoke

Modern Orangeries

A blend of innovative styling and cutting- edge engineering come together to create charm and character.

Offering a fantastically modern look, aluminium columns are available in a range of colours that can either match or contrast existing window and door frames. The smooth columns offer excellent thermal efficiency.

"Our new orangery is fantastic!
We love inviting friends over for
the evening to enjoy it with us"

Mr & Mrs Griffiths

The **attractive elegance** of timber
with the **performance** of uPVC

Classic Orangeries

Classic orangeries typically showcase an atrium roof, which gives the building a sense of extravagance and beautiful sky views.

Skylights

And now for something completely different! The impressive stature of a skylight will really make your living space stand out. Make the sky a feature of your room to give a warm, bright feel with a striking and dramatic finish.

With crisp lines and tinted glass, a skylight looks equally as impressive both inside and out, in fact you won't be able to take your eyes off it.

A skylight can be incorporated into any style of orangery or flat roof extension. Finish the look with some fabulous bi-folding doors and floor-to-ceiling glass panels for a truly luxurious feel.

Let there be light! A warm, bright
ambiance with a striking finish.

"We originally thought we wanted a conservatory, but as soon as we saw the skylight we fell in love with it. It's now our favourite room in the house."

Mr & Mrs Ledger

"We're thrilled with the amount of natural light and the bi-folding doors are perfect for summer days."

Mr & Mrs Sands

Roof Replacement

Our energy efficient, lightweight solid roof systems offer a superb, cost-effective solution to upgrading your existing conservatory.*

Swap your polycarbonate or glass roof for a custom-made tiled roof to achieve a warmer space that feels more like an extension – allowing your family to enjoy the space all year round.

A **new lease of life** for your old conservatory

*Replacement solid roofs for your existing conservatory or orangery are dependent on the age and condition of your existing structure and are subject to survey. Please ask for more details.

"Replacing our old roof has made a world of difference and we can now enjoy the beautiful view all year round"

Mr & Mrs Hastie

Solid Roof Extension

Create a relaxed and private ambiance whilst also beautifully blending into the exterior of your home.

Solid roof extensions are an increasingly popular choice and it's not hard to see why. The extremely durable and thermally efficient properties of our solid roof systems are the perfect solution to creating a truly year-round room.

Using some of the most advanced materials on the market today, our innovative and lightweight solid roof systems are remarkably affordable and incredibly simple to install. Glass panels and Velux windows can be seamlessly integrated exactly where you want them, creating a practical and versatile family space that will stand the test of time.

Make the room your own with infinite possibilities for integrating windows, feature doors, walls and pillars that express your sense of style.

A **world of choice** to suit your lifestyle...

"We're highly delighted with our extension. Excellent quality and workmanship and the room is a fabulous addition to our home"

Mr Gilmartin

"Our new kitchen is the perfect family room. We wanted a solid roof but the glass panels mean it's still lovely and light"

Mrs Phillips

Superb energy efficiency.

Opt for sleek panels for
a **truly on-trend statement.**

Perfect for **entertaining**

Flat glass panels can be seamlessly integrated exactly where you want them - a real hybrid between tiled and glass roof.

The combination of a solid roof with bi-folding doors provides the ultimate harmony between light, space and privacy. In seconds you can open up a full wall and remove the divide between indoors and out.

Finishing Touches

Once you've decided on the style of your new living space, we have a huge variety of frame, colour and hardware options for you to choose from that will help you really personalise your look. From a traditional cottage feel to a sleek and contemporary design, we'll have the perfect combination of materials that will work for you. Your choices will influence the level of security and energy efficiency of your build too, so it's important to get it right.

Frames

Aluminium

An increasingly 'in demand' choice for modern living spaces, aluminium frames have clean, sleek lines which work perfectly with large glazed areas. With a huge variety of colour options to choose from, aluminium is the ideal choice for more contemporary finishes. Its strength and durability is an added bonus, and it performs well thermally too.

UPVC

Low maintenance, long lasting and affordable, classic uPVC is the automatic choice for many. Offering unrivalled thermal efficiency to keep your home comfortably warm, uPVC is still available in a wide variety of colours and has the versatility to create elaborate designs.

Colours - Express Yourself

There are literally hundreds of beautiful shades, textures and wood effects to choose from, satisfying any design preference, or to match your existing property. To see a particular colour for yourself, or to explore the full colour range in its entirety please visit your local showroom or speak to a design consultant .

Aluminium Colours

Our 11-stage powder coating process results in a superior high-quality finish in virtually any colour. Similarly, our aluminium woodgrain finishes benefit from a unique process known as sublimation for an authentic 'real wood' appearance that is utterly convincing.

UPVC Colours

Our standard uPVC colour range includes a number of timeless classics such as White, Whitegrain, Cream and Chartwell Green, with the additions of modern favourites such as Black, Grey and Irish Oak. However, if there is a specific colour match you have in mind, a specially developed paint application process can be applied to match the most precise of colours.

Hardware

A perfect finish means that every component of your living space works together to complete the final look. The hardware you choose (including handles and hinges) can transform the feel of your living space instantly.

If your tastes are suited to modern designs, you can reflect that in simple hardware with sleek lines. If you're more traditionally minded, perhaps you'd like more detail. Either way, our hardware is built to last with robust materials and quality finishes.

Glazing

Your choice of glass will have a major impact on the overall feel and comfort of your new conservatory or extension. Our choice of high-performance glazing options, for both roofs and sidewalls, will ensure your home is comfortably warm and energy efficient whatever the weather outside. .

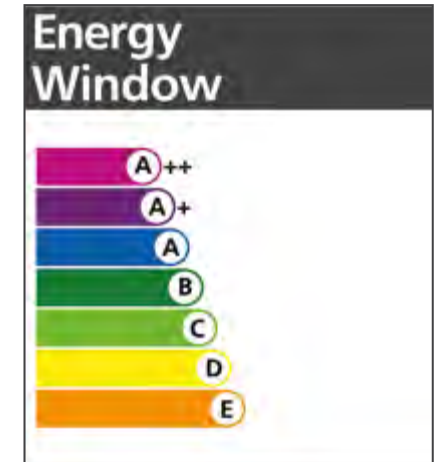

We have an unrivalled range of performance roof glass in a variety of colour tints, allowing you to consider everything from light transmission to self-cleaning for minimal maintenance.

Energy Efficiency – All Year Round

The thermal efficiency of a product is categorised by its U-value, a measure of how much heat is allowed to escape through it. A well-insulated building component will have a low U-value.

You can also gain an indication of the energy efficiency of window products from their Window Energy Rating (WER) which works much like the energy ratings you see on fridges & washing machines – products with a rating of A and above will deliver the best level of energy efficiency.

All of our products are optimised to achieve the lowest possible U-values and best performing WERs, ensuring you're in control of the temperature, whether its super-sunny or snowing outside! This means you can keep your room comfortably warm and energy efficient all year round.

For more information regarding the energy efficiency of any of our products or builds just get in touch with one of our friendly advisors.

See for Yourself...

The best way to explore the benefits of our massive product range is to visit our inspirational indoor showroom. It's situated in Oswestry and are open 6 days a week, take time to relax and chat to our friendly team. You can explore almost everything we sell, windows, doors and full-size lifestyle extensions are on display. We have designed the showrooms to give the widest variety of colours, styles and finishes for you to compare. There's no better place to test your imagination and visualise your dream home.

Your installation, previewed!

At Premier Windows & Conservatories, we've invested in amazing state-of-the-art 3D modelling software, so we're able to bring your home extension or installation project to life at the design stage, helping you see how it will look once it's part of your dream home.

Within our huge showrooms we have comfortable offices or casual break out sofas and chairs within our life-sized displays, so you can explore and discuss your project in an environment that suits you.

Be inspired...
without obligation

Flexible Finance
