

TILED ROOFS

FOR CONSERVATORIES & NEW EXTENSIONS

PREMIER
Windows & Conservatories

WARM, BRIGHT, BE
SPACES

AUTIFUL

Create a beautiful home extension that you can use all year round. Whether you're converting an existing glazed conservatory or planning a brand-new living space, a solid roof from Premier Windows & Conservatories will blend perfectly with your existing property for a super-strong and thermally efficient roof structure that is built to last.

With a range of slate, shingle and traditional roof tile options, the solid roof has a look to complement any home. You can also add Velux windows or large glazed panels for a touch of light and a feeling of space – that all-important finish.

When it comes to roofing system solutions, the solid roof offers more choice than ever before, with an array of tile and roof styles for existing and new projects alike.

NEED SOME DIRECTION?

Our expert team of living space designers will help you find the perfect match for your home or extension, your space and your budget.

WHY CHOOSE A PREMIER SOLID ROOF?

A solid roof from Premier Windows & Conservatories has been designed with exceptional performance in mind. Its clever modular design ensures improved ventilation and air flow, which allows the roof to breathe and prevents condensation.

With low U-Values, a solid roof from Premier will keep the temperature of your room regulated so it feels wonderfully comfortable whatever the weather outside. The result? Like a cosy, breathable duvet over your new living space.

WHY PREMIER?

We regularly assess our business to ensure we provide only the highest standards of service to customers and have the correct processes in place to ensure your installation runs smoothly for ultimate peace of mind.

HOW DOES IT WORK?

A solid roof from Premier Windows & Conservatories is super flexible with the perfect option for any shape or size of extension – allowing you to create a truly bespoke room.

Combining the best of timber and steel construction technology, the framework of your roof is engineered to postcode, ensuring your roof is built to withstand extreme wind and snow loads for your specific postcode.

CLASSIC SOLID ROOF

Perfect for...

EXISTING ROOF REPLACEMENT
OR NEW-BUILD EXTENSIONS

For that year-round cosy feel, our classic solid roof is designed to blend with your existing property, so your new room looks and feels like a 'proper' extension. Keeping the internal temperature regulated whilst also allowing ventilation to flow freely, you can add additional light to your classic roof by incorporating Velux windows exactly where you want them.

ROOF FEATURES

Compatible with any of our tile ranges shown on page 16, you can customise your solid roof with a range of fascias and soffits. Combine with Velux windows and LED interior lighting as required, for the perfect finish.

Balanced blend
OF A SOLID AND GLAZED ROOF

HYBRID SOLID ROOF

For added light and a feeling of space, our hybrid solid is designed with true flexibility in mind. Again suitable for both replacement and new-build projects, our clever modular system allows you to incorporate full-length glass panels into your design. For the best of both worlds, you can still maintain a cosy internal temperature, but also enjoy a stunning panoramic view of the sky.

ROOF FEATURES

Compatible with any of our tile ranges shown on page 16, you can customise your hybrid solid roof with a range of fascias and soffits. Combine with full length glass panels and LED interior lighting as required, for the perfect finish.

TILE STYLE

SLATE

A PERFECT MATCH FOR YOUR HOME

When it comes to extending, it's so important to create a look that complement your existing property. That's why we have a fantastic range of modern slate and shingle tiles in a variety of colours so you can choose the look that's right for you. All our roof options are even compatible with traditional slate roof tiles for a true match to your home.

LIGHT IT UP

NO COMPROMISE ON LIGHT

It's so important to consider how much natural light your new room will let in. The solid roof can incorporate Velux windows for added light and ventilation, or for even more light and a feeling of space, full length glass panels can be seamlessly integrated right where you want them.

You can even design your roof with integrated LED lights for that all-important finish.
